Assignment 8.3

Interest Calculator

Initial Investment   Annual Interest Rate

$ 100.00   6   %

Calculate   Reset

Year	Investment	Annual Rate	Total	Net
1	$106.00	6.36%	$6.00	$6.00

One principle I like to use a lot is to keep things centered, especially for web apps because it is easier to make it mobile scalable if there is a container type object. Another thing I did was keep the form elements in it's own little bubble so that the user knows where to go when using the program.
